

SiVance®

Specialty Silicones

Tetramethyldisilazane

Technical Data

Description

Tetramethyldisilazane is a disilazane with silicon hydride functionality on each of the two silicon atoms.

Recommended Use

Tetramethyldisilazane is an effective silyl-capping agent. It also provides the reactive silicon-hydride site. It commonly used in coating formulations. It useful for preparing reactive intermediates of certain types of alcohols.

Typical Properties

Product Code	3000064095
CAS Number	15933-59-2
Assay, %	99.0

Values shown are not intended for specification preparation

Handling and Storage Precautions

If stored for longer than one year, the material should be reevaluated prior to use. Store the container in a cool, dry area. Keep the container tightly closed when not in use.

Additional safety, environmental and regulatory issues are addressed in the Safety Data Sheet.

Please contact your SiVance Representative for additional information.

PLEASE NOTE: As each customer's use of our product may be different, information we provide, including without limitation, recommendations, test results, samples, care/labeling/processing instructions or marketing advice, is provided in good faith but without warranty and without accepting any responsibility/liability. Each customer must test and be responsible for its own specific use, further processing, labeling, marketing, etc. All sales are exclusively subject to our standard terms of sale posted at www.milliken.com/terms (all additional/different terms are rejected) unless explicitly agreed otherwise in a signed writing.
