

SiVance®

Specialty Silicones

MTAS 3-Methacryloxypropyl(triacetoxy)silane

Technical Data

Description

This SiVance triacetoxysilane silicone chemistry provides unique dual functionality of both UV and moisture cure properties in adhesives and sealants formulations. This material has no chloride content and less corrosive.

Recommended Use

Used as an additive in moisture and/or UV cure adhesive and sealant applications.

Typical Properties

Product Code	3000064460
CAS Number	51772-85-1
Assay, %	85.0 (min.)
BHT, ppm (stabilizer)	900-1300
Appearance	Clear, yellow

Values shown are not intended for specification preparation

Handling and Storage Precautions

If stored for longer than one year, the material should be reevaluated prior to use. Store the container in a cool, dry area. Keep the container tightly closed when not in use.

Additional safety, environmental and regulatory issues are addressed in the Safety Data Sheet.

Please contact your SiVance Representative for additional information.

PLEASE NOTE: As each customer's use of our product may be different, information we provide, including without limitation, recommendations, test results, samples, care/labeling/processing instructions or marketing advice, is provided in good faith but without warranty and without accepting any responsibility/liability. Each customer must test and be responsible for its own specific use, further processing, labeling, marketing, etc. All sales are exclusively subject to our standard terms of sale posted at www.milliken.com/terms (all additional/different terms are rejected) unless explicitly agreed otherwise in a signed writing.
